

ALGOMATRIX

SYSTEM BASED TRADING

What is ALGOMATRIX ?

ALGOMATRIX is an innovative initiative that facilitates purely rule based trading Buy/Sell for all asset classes – Equity, Currency and commodity for different types of traders i.e Positional, Intraday, Swing and Momentum. This is a revolutionary concept where in a software not only predicts the trading signals but also takes action on its own with the combined strength of machine learning, cutting edge technology and deep industry insights.

Why ALGO TRADING?

01

No Emotion only Action

It is totally based on the concept of System based trading. This totally removes the human intervention in identifying trading set-ups and thus keeps emotion out of trading.

Trade on Both sides

ALGOMATRIX identifies real-time trading opportunities for both side of the market i.e. Bullish and Bearish

02

03

All Encompassing

It covers all market segments i.e. Equity, Derivatives, Currency and commodity under one window

Automated Execution

ALGOMATRIX facilitates automated systematic rule based trading. Clients need not invest their time and energy in the same.

04

05

Simplicity

ALGOMATRIX is developed and designed to suit the end user in terms of operation and understanding. It is hassle-free and available on Desktop, Mobile app etc. so that it can be accessed from anywhere anytime.

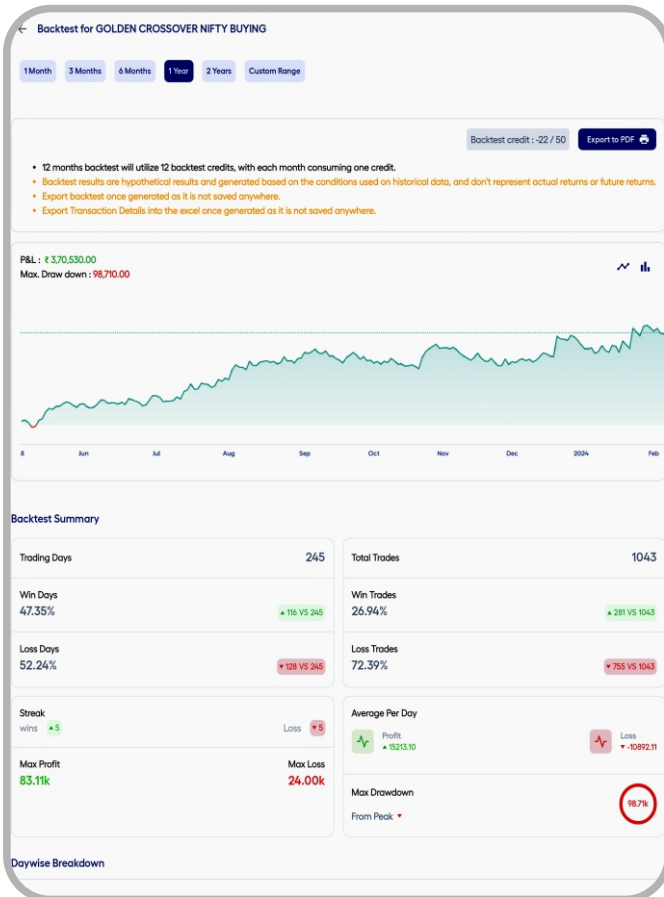

Who should use ALGOMATRIX?

- Anyone who wants to enhance their trading performance without investing their valuable time by benefitting from the technical advancements in the field of trading.
- It is a revolutionary software anyone can use irrespective of their age, education and occupation.
- It is a ready to trade tool which eliminates the complexities of trading and makes it easier for everyone to understand.

Back tested data Result :

Invested Capital is 2 lac rs out of which the deployed capital is 1 lac and 1 lac is kept as reserves for drawdown.

On 1 lac of deployed capital our system has generated 3.70 lac rs in 1 year.

On an investment of 2 lac Algomatrix has generated a staggering 85% ROI.

Risk to Reward is 1:3
This performance is in line with proper Risk Management as it is given the utmost priority.
